PROFESSIONAL SUMMARY

Nathaniel Temitope Ogunjobi (Cyber Nate), AMICDFA, is a multi-disciplinary cybersecurity professional, SOC analyst, DFIR specialist, and digital forensics researcher with 5+ years of active experience spanning law enforcement intelligence, security operations, IT systems, and cybersecurity education. Currently serving dual operational roles as Remote SOC Analyst at NexSecure Cybersecurity and IT/Cyber Intelligence Analyst at FGLEA Lagos Strategic Command, and as Founding Team Member (Cybersecurity & IT Operations Analyst) at YENAK Technology. Associate Member of the International Cybersecurity & Digital Forensics Academy (AMICDFA) and current Bonafide Student of the Advanced Critical Infrastructure Security Programme (ACIS, Cohort 11, 100% funded). Published threat intelligence researcher (MutaCryptor TI Report v2.0, ICDFA Repository, May 2026), founder of the Cyber Army Initiative (CAI), and operator of the Cyber Nate professional brand serving the African cybersecurity community. Holds 22+ credentials, 8+ published investigations, and an expanding certification stack across digital forensics, threat hunting, cloud security, and AI. Immediately available for remote and relocation roles globally.

CURRENT ACTIVE ROLES

Remote SOC Analyst — NexSecure Cybersecurity *Nov 2025 – Present*
IT & Cyber Intelligence Analyst / Focal Officer — FGLEA Lagos Strategic Command *Jul 2025 – Present*
Founding Team Member — Cybersecurity & IT Operations Analyst — YENAK Technology *May 2026 – Present*
Cybersecurity Specialist — Volunteer — Nigerian Innovation (NI) *May 2026 – Present*
SOC Analysis Intern — Cohort 1 — Ubuntu Bridge Initiative *2026*
Beta Tester — AI Cybersecurity Assistant — Askeal *2025 – Present*

PROFESSIONAL EXPERIENCE

Remote SOC Analyst | NexSecure Cybersecurity *Nov 2025 – Present*
Remote · Lagos, Nigeria

- Monitor security alerts and events across client environments using SIEM platforms, identifying threats and anomalous behaviour
- Perform initial alert triage, log analysis, and validation of security incidents following defined SOC procedures and playbooks
- Escalate confirmed incidents to senior analysts with documented timelines, IOC findings, and containment recommendations
- Conduct threat intelligence research to enrich incident context and improve detection accuracy
- Document all findings, investigation timelines, and response actions in helpdesk and case management systems
- Collaborate with distributed remote SOC teams to refine detection rules and update internal knowledge base

IT & Cyber Intelligence Analyst / Focal Officer | FGLEA Lagos Strategic Command *Jul 2025 – Present*
Lagos, Nigeria · Federal Government Law Enforcement Agency

- Lead cybercrime and cyber intelligence investigations using OSINT tools, digital analysis, and open-source research methodologies
- Designated Focal Officer for the nationwide Digital Workflow Platform rollout (live April 1, 2026) — primary liaison managing EDMS adoption across all field commands nationwide
- Review and analyse digital evidence; prepare formal intelligence reports for investigative and operational use
- Monitor and triage cyber threats via SIEM tools; train staff on digital security practices and platform use
- Maintain accurate, audit-ready documentation for all investigative, technical, and workflow activities

Administrative & IT Support Officer | FGLEA Lagos Strategic Command *Jul 2023 – Jul 2025*
Lagos, Nigeria · Federal Government Law Enforcement Agency

- Delivered IT support and system troubleshooting in a highly regulated, security-conscious law enforcement environment

- Managed confidential records, official reports, and internal documentation with strict confidentiality compliance
- Supported secure handling of sensitive operational data and internal communications across agency units

Founding Team Member — Cybersecurity & IT Operations Analyst | YENAK Technology *May 2026 – Present*
Remote · EmergencyEcho — AI-powered emergency health response platform · 250,000 shares · Equity vesting Nov 2026

- Founding team member responsible for cybersecurity architecture, IT operations strategy, and security posture for EmergencyEcho
- Contribute to product security reviews, threat modelling, and data protection compliance for a health-tech AI platform
- Support technical operations and system reliability as the platform scales toward public deployment

Cybersecurity Specialist — Volunteer | Nigerian Innovation (NI) *May 2026 – Present*
Remote · CV review passed · Orientation attended May 2026

- Volunteer cybersecurity specialist contributing expertise to Nigerian tech and innovation ecosystem programmes

Beta Tester — AI Cybersecurity Assistant | Askeal *2025 – Present*
Remote

- Selected to beta test Askeal, an AI-powered cybersecurity assistant — evaluating threat analysis outputs and usability
- Provide structured technical feedback on AI-driven security features, flagging edge cases and misclassifications

Freelance IT Support & Cybersecurity Consultant | Cyber Nate (Self-employed) *Jan 2022 – Present*
Remote / Global

- Provide remote cybersecurity awareness, IT support, VAPT, web development, and security consulting for global clients
- Operate Cyber Nate brand across YouTube (@CyberNation01), portfolio site, and academy — cybersecurity education for the African community
- Authored and published MutaCryptor TI Report CNTI-2026-001 (TLP:WHITE) — ICDFA Repository, May 2026
- Built and deployed RankUp — Nigeria's only agency promotion exam prep platform (1,600+ registered users, React + Supabase + Claude AI)
- Founder of the Cyber Army Initiative (CAI) — proposed national cyber defense framework for Nigerian security agencies; Article 1 published

Data Analysis Intern | Codveda Technologies *Mar – Apr 2026*
Remote

- Completed structured data analysis internship covering data cleaning, Python/pandas workflows, and reporting methodologies

IT Instructor & Network Administrator | DeDynamic Comprehensive College *May 2022 – Jul 2023*
Ogun State, Nigeria

- Delivered IT and cybersecurity awareness instruction to students; managed school network infrastructure and IT support operations
- Configured and maintained LAN, workstations, and server environments; provided Level 1/2 helpdesk support

Chapter President & Web Programming Instructor (Volunteer) | NACOS — NOUN Abeokuta Chapter *Feb 2021 – Mar 2023*
Volunteer Leadership Role · National Association of Computer Science Students

- Served as elected Chapter President; organised hackathons, bootcamps, and mentorship sessions for computer science students
- Delivered web programming instruction covering HTML, CSS, JavaScript, and introductory Python

Wordpress / Web Developer | Techphilia NG *Feb 2021 – Apr 2022*
Nigeria

- Provided IT support and technical assistance for clients across software, hardware, and networking domains

IT Support Specialist (SIWES Intern) | ChoiceField Cyber Cafe *Oct 2020 – Apr 2021*
Nigeria · Student Industrial Work Experience Scheme

- Completed SIWES industrial attachment — provided IT support, customer service, data entry, and basic system administration

NOTABLE PROJECTS & INVESTIGATIONS

MutaCryptor Scam Network — Threat Intelligence Report v2.0 | TLP:WHITE · ICDFA Repository · May 2026

CNTI-2026-001 · Published: cybernatesec.netlify.app/case-mutacryptor

- Personally targeted by Zorvyn FinTech fake internship operation; identified the scam pre-payment and launched a full threat intelligence investigation
- Correlated three entities — Zorvyn FinTech, VRV Security, MutaEngine — as a coordinated global internship fraud ring
- Documented an 8-phase MITRE ATT&CK-mapped attack chain (T1566, T1583, T1584, T1587, T1567) with 18+ IOCs and 3 Bitcoin wallets
- Report v2.0 published in ICDFA Repository; ranked #1 Google result for 'MutaCryptor scam network'

AD Compromise Chain Analysis — Pass-the-Hash | Week 5 Technical Precision Award · March 2026

Red Team Leaders x 0xDelta Research 5-Week Challenge

- Forensic analysis of full Active Directory compromise chain — Pass-the-Hash lateral movement, ghost LSASS session detection, NTLM hash extraction, pivot to Domain Admin, and persistence identification
- Full MITRE ATT&CK mapping with defensive kill-chain recommendations — awarded Technical Precision Award and 100% CRDFA voucher

RankUp — Agency Promotion Exam Prep Platform | Cyber Nate · Live · rankupdea.netlify.app

- Nigeria's only AI-powered promotion exam prep platform for NDLEA officers; React + Supabase + Anthropic Claude API
- 1,600+ registered users; covers 6 ranks (CNA through CSN), 5 courses, 60-question CBT sessions, 435+ past questions
- Paystack payment integration active; business partner: Kadiri Yewande Muminat (COO, 60/40 split)

Cyber Nate PDF Document Intelligence Suite | Cyber Nate · 2026

- Privacy-first, client-side PDF processing platform — no server, no uploads, all processing in-browser using PDF.js, Tesseract.js, docx.js, and JSZip
- Features: OCR text extraction (20+ languages), Word document conversion, image extraction, batch processing, find & replace
- Pro tier (Q3 2026): AI summarisation via Claude API, Ask Your Document Q&A, searchable PDF output, OCR confidence scoring

Cyber Army Initiative (CAI) | cybernatesec.netlify.app/cai

- Proposed national cyber defense framework to unify cyber/IT units of Nigerian military and paramilitary agencies — eight components, four-body governance, four-phase roadmap
- CAI Article 1 published: cybernatesec.netlify.app/why-nigeria-needs-unified-cyber-defense; stakeholder outreach underway

FGLEA Automated Nominal Roll Webapp | FGLEA Internal Tool

- Single-file HTML tool for 472 officers across 26 sections — promotion eligibility matcher, Word/Excel export; pushed to GitHub

NexSecure Bootcamp Final Projects | March 2026

- SOC Phishing & Credential Compromise: M365 spear-phishing, IOC table, L1/L2 response, MITRE T1566.001/T1078 — 35-minute containment
- USB Malware/RAT: 5-stage infection chain, memory forensics, org-wide threat hunt, MITRE T1091/T1059/T1547/T1071 — sub-60-second detection
- VAPT: black-box pentest testphp.vulnweb.com, SQLi CVSS 9.8, XSS CVSS 9.3, LFI CVSS 8.6 — Burp Suite, SQLMap, Nikto, OWASP ZAP, Nmap, Wireshark

Cyber Nate Intelligence & Forensics Platform (CNIFP) | 2026 – Present · In Development

- SOC Analyst Simulation Platform with alert triage dashboard, IR playbook engine, evidence locker, threat intel feed integration, and report generator

School Management System (SMS) Demo | Mar 2026 · React · cybernatelmsdemo.netlify.app

- Full client-ready School Management System — React, 12 modules (Dashboard, Students, Teachers, Classes, Subjects, Attendance, Grades, Timetable, Finance, Library, Messaging, Settings), 4 user roles

Fake Internship Phishing Investigation | Mar 2026 · CASE-2026-001

- OSINT investigation into Redynox & Arch Technologies fraudulent cybersecurity internship campaigns — IOC table, formal report, published portfolio

EDUCATION

B.Sc. Computer Science | National Open University of Nigeria (NOUN) *Graduated March 2022*
Abeokuta, Ogun State, Nigeria

AWARDS & RECOGNITION

Week 5 Technical Precision Award — Red Team Leaders x 0xDelta Research · March 2026

Selected for forensic analysis of a full Active Directory compromise chain covering Pass-the-Hash lateral movement artefacts, ghost LSASS session detection, NTLM hash extraction, attacker pivot path to Domain Admin, and multi-source corroboration methodology. 100% voucher awarded for CRDFA certification.

ICDFA Advanced CIS Scholarship — Cohort 11 · April 2026

Shortlisted and awarded 100% scholarship ($3,500 value) for the Advanced Critical Infrastructure Security Programme. Ref: ICF/2026/9655DF. CPD track: SC-200, AZ-500, SC-300.

SKILLS & TOOLS

SIEM & Monitoring: Security event monitoring · Alert triage · Log analysis · Threat detection · IOC correlation · Splunk (in training) · Microsoft Sentinel

DFIR & Forensics: Autopsy · FTK Imager · Magnet RAM Capture · Digital evidence analysis · Chain of custody · Incident timeline reconstruction · Volatility

OSINT & Intelligence: Open-source investigation · Cybercrime analysis · Threat actor profiling · Bellingcat methodologies · TryHackMe · CSI Linux

Pentest & Web Security: Burp Suite · SQLMap · Nikto · OWASP ZAP · Nmap · Wireshark · OWASP Top 10 · SQLi · XSS · LFI · Kali Linux

Security Frameworks: MITRE ATT&CK · NIST 800-53 · Incident Response Lifecycle · OWASP Testing Guide v4.2 · PTES · Kill Chain

Cloud & Systems: Windows · Linux · macOS · Active Directory · VMware · Windows Server · AWS (basics) · Azure (AZ-900) · DNS · DHCP

Development: React · JavaScript · HTML/CSS · Python · SQL · Supabase · Netlify · WordPress · Webflow · Git/GitHub

IT Support & Admin: AnyDesk · TeamViewer · Zendesk · Jira · Notion · Trello · Google Workspace · Slack · Zoom

Documentation: Incident reports · Intelligence briefs · VAPT reports · SOPs · Audit-ready records · TI reports (TLP classification)
